

FRONT END – PART 1

STYLING WITH CSS

Code : Margin

As you know, an element's margin controls the amount of space between an element's border and surrounding elements.

If you set an element's margin to a negative value, the element will grow larger.

So your task is:

- 1.To set the margin to a negative value for the red box.
- 2.Change the margin of the blue box, so it fills the entire horizontal width of the yellow box around it.

Expected Output:
