

## FRONT END – PART 1

### MORE ON HTML

#### Create Table: Apply What You Have Learnt !

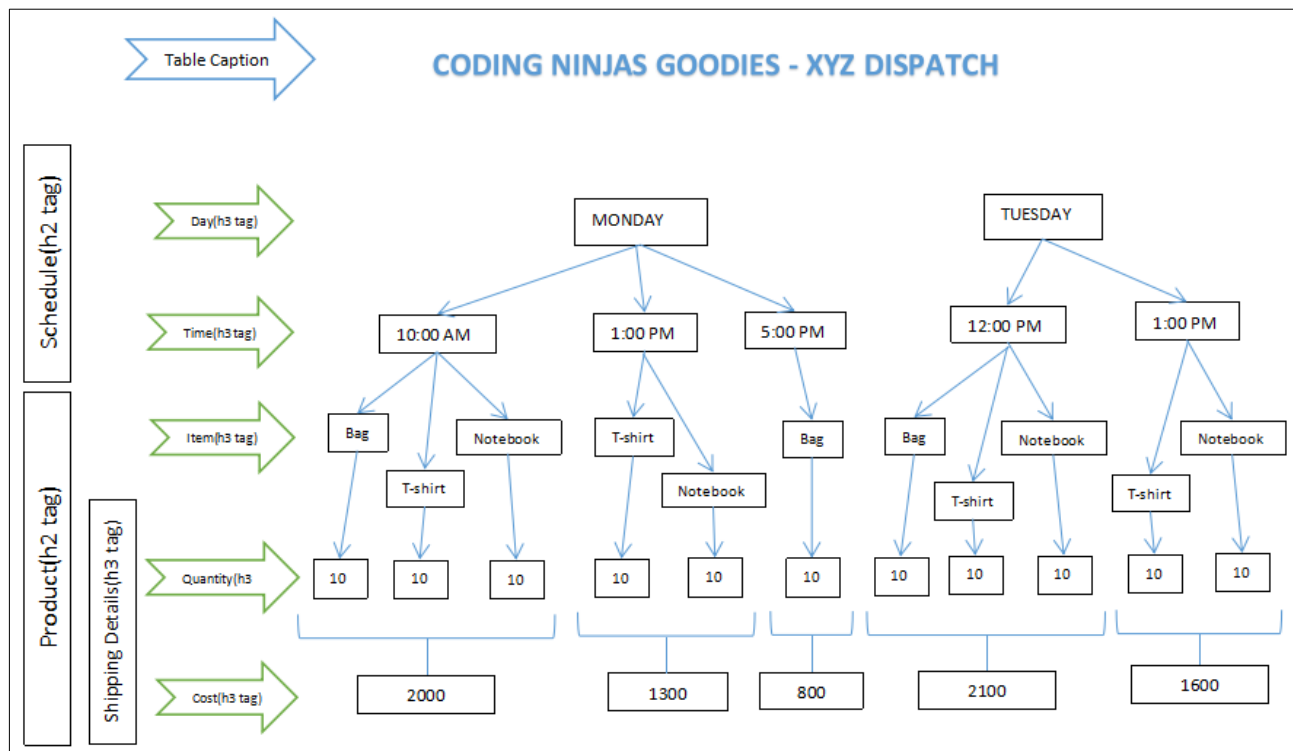

Tables are a great way to display data in a tabular form. It simplifies the way we look at the data.

It is now time for us to create a simple table for the use of Coding Ninjas.

So, create a table using the image of the visualization chart provided below. Also, a small boilerplate code for starting with the table is provided.

If you get confused somewhere, you can also take help from the image of the table provided below.

The visualization chart is -

The table should look like this -

CODING NINJAS GOODIES - XYZ DISPATCH				
Schedule		Product		
Day	Time	Item	Shipping Details	
			Quantity	Cost
MONDAY	10:00 AM	Bag	10	2000.00
		T-Shirt	10	
		Notebook	20	
	1:00 PM	T-Shirt	20	1300.00
		Notebook	15	
	5:00 PM	Bag	8	800.00
TUESDAY	12:00 PM	Bag	8	2100.00
		T-Shirt	12	
		Notebook	22	
	1:00 PM	T-Shirt	10	600.00
		Notebook	10
