

FRONT END – PART 2

JAVASCRIPT : FUNCTIONS AND ARRAYS

(Day of the Week)

Write a function 'returnDay' that takes one parameter(number from 1 to 7) and returns the day of the week.

(where 1 is Monday, 2 is Tuesday, 3 is Wednesday, etc).

If the number is less than 1 or greater than 7, the function should return null.

Note: Store the days of the week in the array.
