

## FRONT END – PART 1

### STYLING WITH CSS

#### **Complete Aside Section of Blog**

Creating the aside section for the blog page gives a great look to our blog.

One of aside section has been partially completed for you. Take help from this and create other sections.

You also need to create the author section as well.

Initial layout has been provided for all the sections you need to create.

**One of the image, i.e. of the search icon is of white color, therefore you might not be able to find it in the assets. So here is its link.**
