# FRONT END – PART 1
## FLEX

**Code: Flex Balls 1**

We have some balls put inside the box ready to export. Currently the balls are arranged as follows -

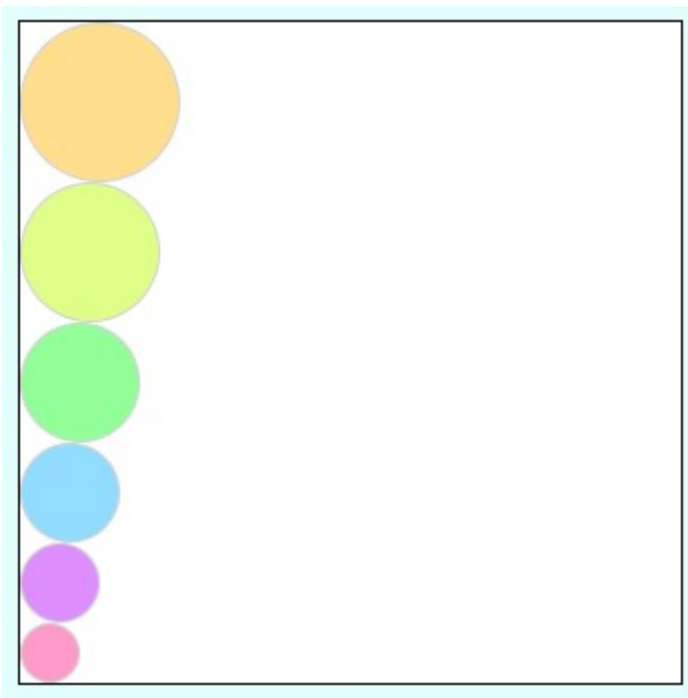

Before exporting them, some changes to the arrangement of these balls is needed.

First, reverse the order of these balls and it would look like this -

**Now, rotate these balls 90deg in clockwise direction and it would look like this -**

**At last, change their sequence in the following manner -**
